

Extraer .zip en Batch

Codigo:

```
<code powershell> $files = Get-ChildItem "F:\x360" -Filter "*.7z" -File
```

```
foreach ($file in $files) {
```

```
    $destination = Join-Path "G:\x360iso" $file.BaseName
```

```
    New-Item -ItemType Directory -Path $destination -Force | Out-Null
```

```
    Write-Host "Extrayendo: $($file.Name)"
```

```
    & "C:\Program Files\7-Zip\7z.exe" x -y `
        $file.FullName `
        "-o$destination"
```

```
    Write-Host "Terminado: $($file.Name)"
```

```
} </code powershell/>
```
